Art Unit: 2856

1. Applicant's traverse of the holding of non election of claims 27-49 as not being an originally presented invention in Paper No. 12, filed Nov. 24, 2003 is acknowledged. The traversal is on the ground(s) that the originally presented invention would inherently require the Z-actuator of the claims held non-elected since the present invention is directed to making force measurements between a probe and a sample at individual points by modulating tip/sample separation, i.e., by providing relative motion between the tip and sample in "Z". This is not found persuasive because of the reasons advanced in the original holding that the claims were held nonelected by original presentation which applicants traverse fails to show had any erroneous holdings. Applicant's traverse includes arguments based on features that are not claimed in the elected group such as monitoring forced based interactions in the Z direction. Such is not specifically required in the elected group.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 27-49 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in Paper No. 12.

3. Claims 1-15 and 25-26 have been allowed.

4. Claims 50-52 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 2, 11 and 13 respectively. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper

Art Unit: 2856

after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

5. This application is in condition for allowance except for the following formal matters:

That set forth in paragraph 4 above. In addition nonelected claims 27-49 should either be cancelled or applicant should take other appropriate action in thereregard as per 37 CFR 1.144.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tom Noland whose telephone number is (703) 305-4765.
